Leonard U. Ekenekiso

Software Engineer at DESLOG ENERGY SERVICES LTD

Summary

Skilled in PHP web Application, Laravel Web Application Development, Angular Development and Java SE. Strong education professional with a Bachelor of Engineering (B.Eng.) focused in Electrical, Electronics and Communications Engineering from Rivers State University of Science and Technology. When am not coding, I go to the swimming pool. I'm the type of person that is conscious of little details in whatever I do and focus too. I'm a very emotionally too and hate silly joke but can be playful at times.
